Ice. Pure and Simple

### ICEU SERIES - SELF CONTAINED UNDERCOUNTER ICE MACHINES

- Self contained, under-counter cube ice machine
- Removable legs for reduced height
- Easy to install, service & maintain
- No side clearance required
- Stainless steel construction
- 230v / 50hz / single phase

### ICE SERIES - HIGH CAPACITY CUBE ICE MACHINES & STORAGE BIN

- Constructed from sturdy, corrosion proof 300 series stainless steel
- Boasts a novel quick-release panel system that allows full access to the modular cubers with the removal of only 2 fasteners
- Easy to clean and maintain - Electro-mechanical controls
- Available with air cooled or water cooled condenser
- Modular system allows for alternative ice machine and storage bin combinations
- 230v / 50hz / Single phase

### MFI SERIES - FLAKE ICE MACHINES

- Flake ice is ideal for seafood, meat and many other products that can be damaged by harder ice.
- Flake ice enables greater contact with the product, resulting in faster cooling effect and product freshness.
- Load monitoring system constantly checks workload on gearbox - shutting down system before a problem develops and preventing costly repairs.
- Water sensor eliminates low or no water failures and cannot be affected by adverse water conditions.
- Rugged stainless steel evaporator and auger ensures longevity and reliability.
- Industrial-grade roller bearings and heavy duty gearbox provides years of trouble free service.
- Modular system allows for alternative ice machine and storage bin combinations.

TECHNICAL DATA		MFI0805 B55	MFI1255 B55

### HOTEL ICE DISPENSER

- Turbo dispense - dispenses up to 1/2 kg of ice per second. User friendly push to dispense. Smudge proof finish prevents finger prints & smudges.
- Maximum ice storage in a minimum amount of space with an ultra low profile.
- Hotel Dispensers are insulated with an average of 100mm of foam for maximum ice preservation.
- Allows access to the bin for easy cleaning without moving the ice machine.
- Does not include ice machine.
- Suits Ice Machine ICE305, 405, 605, 805 & 1005

TECHNICAL DATA		CD40530
Capacity /Storage	kg	81
Dimensions	W mm	762

### ICE PRO AUTOMATIC DISPENSING SYSTEM

- Ice storage bin with automatic agitation to store and dispense cube or nugget ice into bags, carts, totes, and a alternative attachment is available on the DB650 for filling jugs and eskies.
- Exceptional labour saving, sanitation and safety for food service operators.
- Eliminates the need to shovel or scoop ice from bin.
- Automatic agitation prevents ice build up .
- User friendly controls with variable dispense time.
- Fill 5kg bags up top 6-8 bags per minute.
- Does not include ice machine.
- Suits Ice Machine ICE305, 405, 605, 805 & 1005

### FF-AR FLAKE ICE MACHINES (Includes Refrigeration)

- Flake ice is used in a variety of applications including; seafood, meat processing, poultry, supermarkets, chemical plants and mines.
- Grant Ice Systems' flake ice making machines are designed with advanced technology for excellent performance and highly economical energy consumption.
- Ice is produced at -9° from a static evaporator which is completely sealed, with minimum maintenance required for the lifetime of the machine.
- The evaporator is made of high quality, low temperature alloy steel.
- Includes Ice Level Sensor

#### NOTE

FF0.4AR & FF0.6AR Come complete with aesthetically pleasing, vented stainless steel enclosure.

### FF-E SERIES FLAKE ICE MACHINE (Evaporator Only)

- FF-E Series suited to those contractors that want to combine single or multiple evaporators operating on a common refrigeration plant.
- Comes with complete control system, water pump and gear motor assembly.
- Switchboard includes; Isolating switch, fault lights and 'smart relay' for safe controlled sequenced starting.
- Models available up to 50 ton with Freon or ammonia options.
- Evaporator includes Ice Level Sensor, TX Valve.
